

Britney Davis **STEAM Director**

Britney Davis was born and raised in Philadelphia, Pennsylvania. At an early age, Britney practiced gymnastics and trained in various styles of dance including ballet, jazz, tap, modern, and pointe. To further develop her artistry, Britney performed with the Grace Dance Theater of Philadelphia, Koresh Dance Company, and Philadanco! The Philadelphia Dance Company.

Britney developed her passion for being a servant leader and making the world a better place from twelve years of Girl Scouting. Within her Girl Scout experience, Britney earned her Bronze and Silver Awards and the Girl Scout Gold Award, becoming part of the 5.4% of Girl Scouts who successfully earn the highest award in Girl Scouting. Girl Scouts aided in Britney's love for travel as she used her cookie profits to attend three Girl Scout Destinations: The Space Academy in Huntsville, Alabama and travels to Northern California and Costa Rica.

Graduating from Villanova University with a Bachelor of Science degree in Chemical Engineering with minors in Business and Engineering Entrepreneurship in 2015, Britney played an active role in reactivating the Villanova University chapter of the National Society of Black Engineers, an organization dedicated to stimulating minority growth within engineering.

While a student at Villanova University, Britney interned with the Dow Chemical Company as a Production Engineer in Ringwood, IL and Process Automation Engineer at Dow's largest facility in Freeport, TX.

Upon graduation, Britney accepted a position with Precision Castparts Corp. in their two-year Management Development Program where she worked in Southern California as Process Control Engineer and then in Las Vegas as Process Engineer and Crushing Supervisor.

Britney joined the Girl Scouts of Southern Nevada in July 2017 as STEAM Director.
